Speech of Marshal KIM IL SUNG

AT BANQUET ARRANGED BY CC OF WPK IN HONOUR OF DELEGATION OF NCP

Respected Comrade Reidar T. Larsen!

Dear comrades members of the delegation of the Norwegian Communist Party!

Dear comrades and friends!

It gives us great pleasure to receive in Pyongyang, our capital, the delegation of the fraternal Norwegian Communist Party, a friendly envoy of the Norwegian Communists and working class, and sit with them today in such friendly atmosphere.

I, in the name of the Central Committee of the Workers' Party of Korea and the entire Party membership, warmly welcome the delegation of the Norwegian Communist Party headed by Comrade Reidar T. Larsen, Chairman of the Norwegian Communist Party.

The current visit of the delegation of the Norwegian Communist Party to our country is a support and encouragement to our Party and people fighting for the socialist construction of the country and the independent unification of the fatherland, repulsing ever intensifying aggressive manoeuvres of the U.S. imperialists.

Our two Parties and the working classes of our two countries are class brothers who are struggling to attain the common purpose.

Our Party and people have friendly sentiments for the Norwegian Communist Party and people and are following the struggle with keen interest.

From the first days of its founding, the Norwegian Communist Party has waged an arduous struggle, as the vanguard detachment of the Norwegian working class, against the internal and external class enemies and for the class emancipation of the working class and the victory of the cause of socialism and communism.

In the difficult period of the Second World War, the Norwegian Communist Party organized and waged a heroic resistance with arms in its hand against the fascist German occupationists, and won brilliant victory.

The great deeds performed and blood shed by the fine sons and daughters of the Norwegian people in the sacred struggle against the fascist occupationists and class enemies, inspire still today the communists and revolutionary people to a struggle.

The Norwegian Communist Party has earned for it high authority and prestige among the broad masses of the people of Norway for its devoted struggle for the liberation of the Norwegian people and their genuine interests and it has grown and developed into a mighty revolutionary force.

Today the Norwegian Communist Party is struggling against imperialism headed by U.S. imperialism and the monopoly capital at home and for the democratic development of the country and the vital rights of the working people.

Our Party and people sincerely rejoice over the successes made by the Norwegian Communist Party and working class in the struggle for the revolutionary cause of the working class and extend support to and firm solidarity with you in the revolutionary struggle.

Dear comrades!

Today our Party and people are struggling vigorously to accelerate the complete victory of socialism and the nation-wide victory of the Korean revolution, tightly holding the revolutionary banner of Marxism-Leninism under the difficult condition in which they are standing face to face with U.S. imperialism, the chieftain of world imperialism.

In the past years, our Party and people have converted our country, once backward, into an advanced socialist country independent in politics, self-sustaining in economy and self-defensive in national defence, by firmly adhering to the ideas of *Juche* and displaying the revolutionary spirit of self-reliance.

Today it is the greatest national task facing our Party and people to force the U.S. imperialist aggressors out of South Korea, unify the fatherland and achieve the nation-wide victory of the Korean revolution.

The U.S. imperialists, occupying a half of our fatherland for over 20 years, have turned it into their complete colony and aggressive military base and driven the South Korean people into a hell on earth where famine and poverty, terror and repression prevail.

The occupation of South Korea by U.S. imperialism and its policy of aggression are the root cause of all the misfortunes and sufferings of our nation, the chief obstacle to the unification of our country and the constant source of the outbreak of a war in Korea.

The U.S. imperialists must get out of South Korea without delay, taking with them their aggressor troops and lethal weapons.

If the U.S. imperialist aggressors quit South Korea and there is no more outside interference, the Korean people will unify the fatherland independently on a democratic principle and in a peaceful way and build a rich and strong, sovereigh and independent state good to live in.

Our Party and people express thanks to the Norwegian Communist Party and people for their support to and solidarity with us in our just struggle for forcing the U.S. imperialist aggressors out of South Korea and unifying the fatherland in an independent way.

Despite the heavy blows dealt them everywhere, the U.S. imperialists are desperately trying to save their destiny on the downgrade, clinging tighter to the policies of aggression and war.

The situation today makes it incumbent upon all the anti-imperialist, revolutionary forces with the international communist movement and working-class movement as their centre, to unite close and wage more powerfully the anti-imperialist, anti-U.S. struggle.

When the world revolutionary peoples pool strength and bring strong pressure upon and deal blows to imperialism headed by U.S. imperialism from all sides, it will be unable to run wild and will go to ruin in the end.

Our Party and people will, in the future, too, fight resolutely against imperialism headed by U.S. imperialism and strive for the unity and solidarity of the international communist movement and all the anti-imperialist, revolutionary forces, holding high the banner of the anti-imperialist, anti-U.S. struggle.

Our Party and people actively support and encourage the anti-U.S., national salvation struggle of the heroic Vietnamese people against the U.S. imperialists' aggression and the struggle of the peoples of all countries against imperialism and for freedom and liberation.

Our Party and people treasure the friendship and solidarity with the Norwegian Communist Party and the Norwegian working class.

The communists and working classes of our two countries have supported each other in the common struggle against imperialism and for the victory of the cause of socialism and communism.

Our Party and people will bend in the future, too, all efforts to deepen friendship and militant solidarity between the two Parties and the peoples of the two countries on the principles of Marxism-Leninism and proletarian internationalism.

I propose a toast to the friendship and solidarity between the Parties of Korea and Norway and the peoples of the two countries, to the unity of the international communist movement based on the principles of Marxism-Leninism and proletarian internationalism, to the health of esteemed Comrade Reidar T. Larsen, to the health of comrades members of the delegation of the Norwegian Communist Party and to the health of the comrades present here.

Speech of Chairman REIDAR T. LARSEN

AT BANQUET ARRANGED BY CC OF WPK IN HONOUR OF DELEGATION OF NCP

Esteemed Comrade Kim Il Sung, General Secretary of the Central Committee of the Workers' Party of Korea!

Dear comrades leading functionaries of the Workers' Party of Korea and the Democratic People's Republic of Korea!

Dear brothers!

We express heartfelt thanks to you for such warm hospitality accorded our delegation and convey in the name of the Central Committee of the Norwegian Communist Party and the entire Norwegian wholehearted greetings to you.

We have come here as real brothers closely united with you though we are separated from each other by a long distance geographically.

We express admiration for the revolutionary traditions established by you and follow with great interest your courageous and staunch struggle against the U.S. imperialists and their stooges.

We knew well already that tremendous successes have been made in socialist construction in your country but this time we have an opportunity to acquaint ourselves directly and more with your Party and people and your country. Particularly, it is of special significance for us to have an opportunity to meet Comrade Kim Il Sung, your respected and beloved Leader.

We are very pleased with this visit and think that this visit will be conducive to further strengthening and developing the relations of friendship between our two Parties.

Today millions of people are languishing in the mire of starvation and abject social poverty in the world.

Today the world people are unfolding a decisive struggle against the U.S. imperialists, the ferocious chieftain of the reactionary forces on all continents who are suppressing and plundering the people.

We see in various parts how the U.S. imperialists are manoeuvring to maintain and expand their foothold through sabotages and subversive activities and direct military intervention.

Our country is also sliding deeper and deeper into the sphere of the influence of the U.S. imperialists and the U.S. imperialists are trying to convert our country into their advance base and attacking base.

Up until recently, many Norwegians were unaware that Norway's involvement in NATO is a serious menace to the national freedom and security of our people.

But in recent years, the spirit of struggle against U.S. imperialism and West German militarism, its dangerous ally in Europe, is mounting high among the people of Norway like in other countries.

Today imperialism and its stooges can veil their true color from no one and an increasing number of people are turning out in a more extensive and powerful struggle against imperialism.

The most important task facing the Norwegian Communist Party and anti-imperialist movement of our country today is to deliver Norway from the influence of NATO and lead the progressive people of Norway to manifest positive solidarity with the struggle of the peoples of all countries exploited by the imperialists or exposed to the danger of their aggression.

We are well aware that the U.S. imperialists have set up military bases in South Korea and are engaged in aggressive manoeuvres against the Democratic People's Republic of Korea.

We express all-out solidarity with the struggle of the Korean people against this danger.

The struggle for national independence and the full right to self-determination constitutes an important link in the anti-imperialist struggle.

The world of today is characterized by the ever-growing anti-imperialist action of the masses of the people. Especially, the struggle of the popular masses against the frantic war of aggression of U.S. imperialism against the Vietnamese people is growing in strength.

The U.S. imperialist aggressors are denounced unanimously everywhere in the world, in all countries.

U.S. imperialism will never win in this war. U.S. imperialism already attempted to subdue the heroic Korean people and their socialist

FROM MARSHAL KIM IL SUNG'S REVOLUTIONARY ACTIVITIES DURING ANTI-JAPANESE ARMED STRUGGLE

Large-troop Circling Operations That Gave Terror to Japanese Imperialists

To deal the enemy blows in succession Comrade Kim Il Sung unfolded the large-troop circling operations with the northeastern area of Mt. Baikdoo as the theatre of activities after the Musan area battle that brought the revolution to a fresh, great upsurge.

At the time the Japanese imperialist aggressors considered that they could not attain any "success" in their aggression on the continent without making Manchuria a safe rear. It was from this that they concentrated again their military forces on all-round "mopping-up operations" against the Korean People's Revolutionary Army from the latter half of 1939 in the name of the "special clean-up campaign for maintaining public peace."

They set up the "Nozoe punitive headquarters" in Chilin and hurled their 200,000-odd-strong military forces into "mopping up" the Korean People's Revolutionary Army.

Saying that the "communist forces will be totally destroyed in Manchuria if only we wipe out the Kim Il Sung units," the enemy concentrated his attack on the Headquarters of the revolution where Comrade Kim Il Sung stayed. Every valley east of Mt. Baikdoo was so closely packed with the enemies that the free movement of the guerillas was hardly possible.

The enemy frantically conducted with a large force the "long-distance pursuit operations" and "regional mopping-up operations" to encircle and blockade the secret camps and locate the Headquarters of the revolution.

To counter such moves of the enemy, Comrade Kim Il Sung set forth a new line on changing the former guerilla tactics of relying on the secret camps into the large-troop circling operations in the northeast of Mt. Baikdoo.

This line worked out by him was an active and wise line to frustrate large-scale offensives of the enemy and ensure the steady upsurge of the revolution.

According to this line, the large units of the Korean People's Revolutionary Army staged circling operations along a set secret course applying sharp guerilla tactics. They surprised the enemy and disappeared like lightening; they moved to other place when the enemy pursued them and struck him when he persisted in pursuit even there.

In the late fall of 1939 when the big unit of the enemy was combing mountains and valleys in the Holung area, Comrade Kim Il Sung marched from Holung his unit northward in the direction of far-off Tunhwa county along the set secret course.

Under the direct command of Marshal Kim Il Sung fighters of the Korean People's Revolutionary Army annihilated a large force of the enemy after luring it into a valley of Hangchiho on March 25, 1940.

After its arrival at a valley in Tunhwa the Korean People's Revolutionary Army unit surprised in December 1939 the village where there was the Liukosung timber mill, an important point where the enemy's "punitive forces" were stationed.

Having fought a victorious battle there, the unit of the Korean People's Revolutionary Army under the command of Comrade Kim Il Sung burned down the enemy's barracks and moved to a place a little away from Liukosung together with workers who volunteered to carry booty.

The following morning in the camping spot he made a speech before 150-odd workers, calling upon them to come out in the sacred national-salvation struggle. He explained to them the prospects of the anti-Japanese war and inspired them with confidence of sure victory.

In response to his call, more than 100 workers volunteered to join the Korean People's Revolutionary Army.

Several days after the Liukosung battle, the Korean People's Revolutionary Army unit marched towards Chiahsintzu village in Tunhwa county under the direct command of Comrade Kim Il Sung. Chiahsintzu was bigger than Liukosung. There were over 1,000 lumberjacks and the forestry police corps and the puppet Manchurian army under the control of Japanese officers in this village.

The Korean People's Revolutionary Army unit placed this village at its full command without firing a single shot.

Having learned that the unit was under the command of Comrade Kim Il Sung, the terror-stricken enemy did not even offer a resistance.

The Korean People's Revolutionary Army captured a large amount of provisions and materials and enlisted another 100-odd men here, and marched south full of confidence of victory.

At the urgent report of the garrisons battered at Liukosung and Chiahsintzu, the Japanese imperialists began to rush their large force to the valley in Tunhwa. But at this time the guerillas were far off from there. They had gone south and were on the borders of Antu and Fusung counties.

To deal the enemy heavier blows and educate and train recruits, Comrade Kim Il Sung set up secret camps in the thick forests of Paishitan in Fusung county on the Sungari River and organized the 40-day-long military political study.

Under the personal command of Comrade Kim Il Sung the Korean People's Revolutionary Army grown and strengthened politically and militarily through the military-political study moved to the Duman River area breaking through the enemy's strict cordon to readvance into the homeland.

The unit directly commanded by him attacked Tamalukou, the stronghold of the enemy's "punitive forces," in March 1940, wiped out his headquarters in a twinkle and captured quantities of war materials. Having suffered a serious defeat the Japanese imperialists set loose a large number of their troops to pursue the Korean People's Revolutionary Army. Comrade Kim Il Sung analyzed the situation scientifically and decided to delay the advance into the homeland for the time being and wipe out the enemy coming after the guerillas. At his orders the guerillas lured the large enemy force into the Hungchiho valley and completely wiped out hundreds of enemies including the "commander of the punitive forces" in a few minutes.

The Japanese imperialists said deploringly with regard to the outstanding strategy and tactics of Comrade Kim Il Sung.

"The strategy and tactics employed by the communist forces are completely mysterious. They conduct the war by war methods which are not to be found in any books on strategy and tactics. Our greatest headache is that they resist us by methods quite contrary to the regular operations of the Imperial Army." (The Imperial Army means the Japanese imperialist aggressor army.)

Comrade Kim Il Sung vigorously organized and guided the political work in close combination with the large-troop circling operations. As a result, the revolutionary organizations were restored and expanded in various areas and broader masses rallied around them.

After the Hungchiho battle the guerilla unit under his command got to Hwalatzu in Antu county. The guerillas were in high spirits.

He formed small units and sent them to Samjang sub-county, Musan county, to conduct political and reconnaissance activities. He also dispatched able political workers to different parts of the homeland. The political workers unfolded energetic activities in North Hamgyong Province.

Meanwhile, the guerillas attacked in succession the enemies in the area along the Duman River.

Victories in the Hwalatzu battle fought in Antu county in March 1940, the Yangchokou battle at Tungnancha, Antu county in April, the Tsuliping battle in Holung county in May and the Uilangchen battle in Holung county were won under the direct command of Comrade Kim Il Sung.

Other units of the Korean People's Revolutionary Army, too, unfolded active military operations according to the strategic and tactical line formulated by Comrade Kim Il Sung.

Late in August 1939 a unit of the Korean People's Revolutionary Army killed, wounded and captured more than 500 enemy troops in the Tashaho operations. In September it attacked in succession large units of the Japanese imperialists in Yocha and other areas dealing the enemy telling blows, political and military.

Through these battles, the guerillas supported the Soviet Union with arms under the banner of proletarian internationalism by hitting from behind the Japanese imperialists seeking to invade it.

The large-troop circling operations in the northeastern area of Mt. Baikdoo organized and unfolded by Comrade Kim Il Sung that started in the autumn of 1939 ended in a great victory for the Korean People's Revolutionary Army. The Korean People's Revolutionary Army dealt crushing blows to the enemy, breaking through the encirclement of the 200,000-strong army.

Indeed, the large-troop circling operations organized and unfolded by Comrade Kim Il Sung in the arduous days of the anti-Japanese armed struggle gave the Japanese imperialist aggressors heavy blows, military and political, restored and expanded the revolutionary organizations in different parts, instilled in the people confidence of sure victory, and thus steadfastly led the Korean revolution to one road of victory.

Republic but sustained a defeat. Likewise U.S. imperialism will surely fail in Vietnam.

The Korean and Vietnamese peoples, both split by the imperialists, will certainly unify their fatherlands.

The imperialists will be driven out of all countries where there are today enforcing the tyrannical policy and perpetrating sabotages and subversive machinations against the people.

Today the world people are aware all the more clearly that they can defeat imperialism everywhere only through uncompromising resistance and revolutionary struggle. This is observed not only in Asia, Africa and Latin America but in West Europe.

Imperialism is hazardous because it has dangerous weapons.

But when the people stand against it, it is very weak. Nothing is stronger than the militant solidarity of the people.

Therefore, we should fight more purposefully and consciously in order to unite the forces of the people.

Particularly, the Communist and Workers' Parties, Marxist-Leninists who lead the struggle against imperialism and its war policy are confronted with a more important task.

We, therefore, should always fight with all efforts to achieve the unity of the world working-class movement.

We are very pleased by the fact an identity of views was reached on main problems at talks with Comrade Kim Il Sung and other comrades leading functionaries of the Workers' Party of Korea held in Pyongyang.

We express once again our feelings of friendship with you and pay our respect to your stand which is of great importance in the international communist movement.

What is most important to us today is to use our own brains, as Comrade Kim Il Sung said.

Long live the friendship between the working peoples of Korea and Norway!

Long live proletarian internationalism which defeats imperialism, unites the people and leads them unswervingly to socialism and communism!

Long live the Workers' Party of Korea and Comrade Kim Il Sung, its outstanding Leader!

I propose to drink a toast to the good health and long life of Comrade Kim Il Sung, General Secretary of the Central Committee of the Workers' Party of Korea.

Taean Work System Is Highest Form of Management of Socialist Economy

Taean Wo k System Is Embodiment of Mass Line in Economic Management

"On Further Developing the Taean Work System," announced by Marshal Kim Il Sung, the great Leader of the 40 million Korean people, on November, 1962, is a great Marxist-Leninist document which splendidly solved the question of management of socialist economy by indicating the original way for further strengthening the Party's guidance and carrying thoroughly pushing through the mass line in economic management and managing and running the national economy in a scientific way.

The Taean Work System has its deep roots in the traditional method of mass line of the Workers' Party of Korea established in the course of the heroic anti-Japanese armed struggle personally organized and led by Marshal Kim Il Sung.

Marshal Kim Il Sung said:

"In a word, the Taean Work System is the embodiment of mass line in the economic management."

To embody the mass line in the economic management means to manage and run the economy on the basis of collective wisdom of producer masses extensively participating them in the management and make the working people come out for the fulfilment of the economic tasks given by the Party voluntarily as masters by doing work with people.

Marshal Kim Il Sung grasped in time the matured demands of the development of socialist economy, which makes it possible to carry through the mass line in an all-round way.

Basic Characteristics and Content of Taean Work System

Marshal Kim Il Sung, the great Leader, formulated the basic characteristics and content of the Taean Work System and its superiority as follows:

"The introduction of the Taean System, a new system of industrial management, enabled economic organizations and enterprises to perform all their work with collective leadership of the Party committees and carry out their revolutionary tasks by giving precedence to political work and rouse the masses to activity, and enabled the higher organ to help the lower, the superior to assist his inferior, all people to co-operate in a comradely way and all workshops, factories and branches to closely co-operate with each other so as to develop co-operative production and run the economy rationally on scientific lines in accordance with the objective laws of economy."

The advantages of the Taean Work System lie above all in that it thoroughly ensures the Party leadership and collectivism in economic management.

Marshal Kim Il Sung said:

"...Under the new system of work the factory Party committee manages and operates the factory as its supreme leading organ, and all the Party members, workers and technicians participate in its management."

The collective leadership of the Party committee above all brings the intention of the Party home to all units and all workers in time smoothly and rouses the whole collectives as one for the implementation of the Party policy as the Party committee, the supreme guiding organ of the factory, collectively discusses all the tasks concerning the fulfilment of the policy put forth by the Party in each period and takes measures for their fulfilment.

The collective leadership of the Party committee also makes it possible to ensure the scientific and accurate management and running of economy because the Party committee formed with workers of various domains comprehensively reflects the wisdom of the masses and, on this basis, indicates directions and ways for pushing through the Party policy. And the successful collective leadership of the Party committee makes it possible to get the entire members of the Party into action and rouse the entire working masses to activity as one.

The collective leadership of the Party committee is, indeed, a brilliant example in splendidly solving in a uniform way such fundamental questions in the management of the socialist economy as strengthening the Party leadership and ensuring collectivism.

Marshal Kim Il Sung said: **"What is important in the Taean Work System is to give precedence to political work. Thus everyone should be mobilized ideologically so that all can work with consciousness and know what they work for and what they should do and how they should work."**

To give precedence to political work in economic management means that the working people would be made to clearly understand the intention of the Party and the Leader in carrying out all economic tasks including the administrative and economic work, display a high degree of revolutionary enthusiasm for their implementation and carry out this work first successfully and make other works catch up with it.

To give precedence to political work in all work is a revolutionary work method which accords with the nature of the socialist society, and to awaken the masses and get them into action for the interests of the working masses is an essential work method of the communists.

To give fullest play to the revolutionary enthusiasm and creative energies of millions of working masses, who directly take charge of production and create new technique—herein lies the decisive guarantee for developing socialist economy at a high rate without interruption.

Under this system the working people are informed, before starting any work, of the Party's demand and intention in their domain in the given period and the ways for its implementation are discussed collectively with the result that creative wisdom of the masses is given fully play.

The principle of giving precedence to political work in the Daean Work System finds expression in organically linking the economic work with the work of educating and remoulding people and firmly pushing ahead with both of them.

Indeed, the Taean Work System is a superior system which makes all the workers conduct political work, all the revolutionary tasks backed with political work and all the functionaries, workers, technicians and families of the employees work consciously as one.

It is one of the important advantages of the Taean Work System that the higher organ helps the lower, all people co-operate in a comradely way and all the work shops, factories and branches closely co-operate with each other so as to develop socialist co-operative production.

Marshal Kim Il Sung said:

"The basic spirit of the Taean Work System lies in that functionaries and working people unite as one body and functionaries, not instructing and ordering at their desks, go down to the lower level to work with producers and help them directly."

"In this system, superiors help their subordinates, the well-informed are teaching the less-informed, all the people are helping each other as comrades, and all the work shops are co-operating closely."

What is especially important is the establishment of a new revolutionary way of work by which the upper and the lower levels unite as one in ideology and will to carry out the revolutionary tasks. Marshal Kim Il Sung opened a new way of uniting the guiding personnel and masses in one mind and one will by creating a new method of guiding the lower level, that is the guidance of the lower level by the upper is not work of a new functionaries as in the past but is conducted by thoroughly relying on the Party organizations to rouse the masses to activity.

Another advantage of the Taean Work System is that it thoroughly carries out the principle of democratic centralism and realizes unified and detailed planning.

Marshal Kim Il Sung said:

"In setting up the Taean Work System, our Party and the Government of the Republic saw that unified and detailed planning is realized in order to strengthen the discipline of democratic centralism in economic management and develop our economy in a more planned and proportionate way."

To strengthen democratic centralism in economic management is the essential demand of socialist economy organized and centralized to a high degree.

The necessity of strengthening the centralized unified guidance is raised more keenly as the scale of economy expands and the level of specialization and co-operativization of production is enhanced.

The introduction of unified and detailed planning helps work out a realistic, scientific and mobilizing plan by liquidating the subjectivism of state planning organs, departmentalism and localism of producers and combining well the intention of the State with the creativeness of the producers.

The advantage of the Taean Work System lies not only in that it is a most revolutionary work system in which the mass line of the Party finds its embodiment but in that it is a scientific work system in which the economy is managed and run most rationally.

By ensuring collectivism in the economic management and uniting guidance and masses in this system, all the economic management is done scientifically to suit objective reality.

In this system the economic and technical work such as planning, production, technical guidance and labour administration, is correctly conducted on the basis of the participation of broad masses of producers.

The Taean Work System ensures a new way of managing modern production scientifically and technically by strengthening technical guidance and comprehensive guidance of production.

On the basis of strengthening centralized and planned guidance, the Taean Work System helps correctly use such economic levers as cost and price to suit the transitional character of socialist society, thoroughly calculate and control labour and consumption of materials and establish strict order and system in management activities.

The Taean Work System created by Marshal Kim Il Sung is a valuable wherewithal of the Korean people in the construction of socialism and communism and a powerful ideological and theoretical weapon in energetically advancing the revolution and construction, as a most correct solution to the problem of guidance and management of socialist economy.

The struggle for establishing the Taean Work System is a struggle for defending and implementing the great ideas of *Juche* of Marshal Kim Il Sung in socialist economic management and a struggle for resolutely smashing the infiltration of opportunism of all hues in socialist construction, defending the purity of Marxism-Leninism and giving full scope to the advantages of socialist economic system.

Up-to-date large-size machines are produced in this large-size machine-building shop where is established the Taean Work System. They are supplied to various branches of the national economy and exported to foreign countries.

DPRK Government Declares Null and Void

"Resolution" on So-called "Korean Question" U.S. Imperialists Forced Through at Political Committee Meet of 24th Session of UNGA

Statement of DPRK Foreign Ministry

PYONGYANG, Nov. 19 (KCNA) —The Ministry of Foreign Affairs of the Democratic People's Republic of Korea made public a statement on Nov. 19 declaring null and void the "resolution" on the so-called "Korean question" the U.S. imperialists forced through at the Political Committee Meeting of the 24th session of the United Nations General Assembly held on Nov. 17. The statement reads in full:

At the Political Committee Meeting of the 24th session of the United Nations General Assembly held on Nov. 17 last, the U.S. imperialists again forced through a "resolution" on the "Korean question" as in other years by the conventional method.

The Government of the Democratic People's Republic of Korea and the entire Korean people categorically reject as entirely unlawful and declare null and void this "resolution" on the so-called "Korean question" which was manufactured wilfully against the will and the interests of the Korean people and without the representation and consent of the DPRK, the solely lawful state of Korea.

Despite the strong opposition of the Korean people and all the peace-loving peoples of the world the U.S. imperialists, as usual, again forced the current United Nations General Assembly to put the "Korean question" on the agenda for discussion and manufactured the illegal "resolution" full of fraud and deceit, and this is nothing but a foolish manoeuvring to camouflage their policy of aggression against Korea with the signboard of the United Nations.

The U.S. imperialists clamoured that the cause of the procrastination of Korean unification and the further aggravation of tension in Korea lies in the "threat of communist aggression from the North" and made a preposterous allegation in the "resolution" on the so-called "Korean question" that the U.S. imperialist aggression army must continue to occupy South Korea for "unification and independence" and "peace and security."

Furthermore, the U.S. imperialists draw a false picture in the "resolution" as if the "United Nations Commission for the Unification and Rehabilitation of Korea," their faithful instrument of aggression, were making some "contribution" to "easing tension" in Korea and "realizing the peaceful unification of Korea," and repeated their burglarious demand that it should be kept in operation and should be made to submit "reports" full of lies "at any time."

This is a sinister manoeuvre to "justify" the occupation of South Korea by U.S. imperialism and its moves for provoking another war in Korea, and to make the "UNCURK" "legalize" the U.S. imperialist policy of colonial enslavement enforced in South Korea and beautify and embellish the present situation in South Korea which has turned into a living-hell with fascist oppression prevailing.

By no means can the U.S. imperialists cover up their aggressive nature. The occupation of South Korea by U.S. imperialism and its aggressive policy are the root cause of all the misfortunes and sufferings of the South Korean people, the main obstacle in way of the unification of Korea and the constant source that may lead to the outbreak of war in Korea.

So long as the U.S. imperialist aggression army is allowed to remain in South Korea neither the peaceful unification of Korea can be achieved nor peace in Korea and Asia be maintained.

At the current session of the United Nations General Assembly the representatives of socialist countries and a number of national independent states of Asia and Africa have thoroughly exposed and condemned the U.S. imperialist policy of aggression against Korea and the foul nature of the South Korean puppet clique, strongly demanded the withdrawal of the U.S. imperialist aggression army from South Korea and the dissolution of the "UNCURK" and asserted that the United Nations should no longer discuss the "Korean question" illegally.

It is the reflection of their sincere desire that the question of Korean unification must be solved in a fair and just way to conform with the interests and will of the Korean people and is also in full accord with the principles of the United Nations Charter.

The Government of the DPRK expresses its thanks to the socialist countries, the national independent countries of Asia and Africa and the entire peace-loving peoples of the world for having exposed and condemned the aggressive policy of U.S. imperialism against Korea and extended positive support and solidarity with the Korean people in the just struggle for the independent peaceful unification of the country.

The course of discussion on the "Korean question" at the 24th session of the United Nations General Assembly has clearly shown how desperately the U.S. imperialists are trying to keep the United Nations as a pawn for the execution of their aggressive policy, in flagrant violation of the principles of the United Nations Charter to pursue their aggressive purposes at all cost.

The most stubbornly the U.S. imperialists persist in the maneuver to camouflage their colonial fascist rule in South Korea under the signboard of the United Nations, the more widely their shameful colours as aggressor will be laid bare to the whole world and the further they will be driven into a dead end.

The United Nations must not repeat any more its ignominious history of being used as the U.S. imperialist tool of aggression for its illegal discussion of the "Korean question" against the principles of the U.N. Charter by the coercion of the U.S. imperialists, and must take its hands off the "Korean question."

The aggressions and war manoeuvrings perpetrated by the U.S. imperialists in Korea under the U.N. flag must be stopped decisively and the U.S. imperialist aggression troops must get out of South Korea at once.

The question of the unification of Korea is an internal affair of the Korean people in which no one is allowed to interfere.

The question of Korean unification should be solved by the Korean people themselves independently without any interferance of outside forces and peacefully on democratic principles.

The Government of the DPRK strongly maintains that the U.S. imperialist aggression troops should be withdrawn from South Korea, "UNCURK," the U.S. imperialist tool of aggression, be dissolved without delay and the illegal discussion of the "Korean question" at the U.N. be discontinued.

The Korean people will wage a stubborn struggle and thereby force the U.S. imperialist aggression army out of South Korea and achieve the independent unification of the country without fail.

At 297th MAC Meet

U.S. Imperialist Aggressors' Military Provocation against DPRK Side Denounced

KAESONG, Nov. 14 (KCNA)—The 297th meeting of the Military Armistice Commission was held at Panmunjom on Nov. 14.

At the meeting, our side lodged a strong protest with the enemy side and called it to account for the fact that the U.S. imperialist aggressors are raising war provocation rackets still more frenziedly in South Korea while continuously perpetrating vicious hostile provocations against our side these days in gross violation of the armistice agreement.

According to the statement of Major General Li Choon Sun, senior member of our side, at the meeting, the U.S. imperialist aggressors infiltrated a large number armed spies into the area of our side on six occasions from Oct. 23 to Nov. 9.

Producing before the enemy lethal weapons and espionage apparatuses seized from the armed spies who had been captured alive or killed by our side before having time to carry out the espionage mission assigned them by the U.S. imperialist aggressors, the senior member of our side stressed: The undeniable personal and material evidences show clearly once again that the U.S. imperialist aggressors are the very criminals wantonly violating the armistice agreement.

And the U.S. imperialist aggressors committed such hostile acts as firing over 1,600 shells and bullets toward the Military Demarcation Line with various heavy and automatic weapons including 81 mm mortars which had been illegally introduced in the Demilitarized Zone on 29 occasions between Oct. 24 to Nov. 12 and perpetrated recently again the criminal act of illegally bringing many tanks and armoured cars into the DMZ.

The senior member of our side strongly demanded the enemy side to frankly admit its recent espionage and subversive activities and other violations of the armistice agreement and apologize for them and take out of the DMZ without delay all the lethal weapons and armed bandits illegally brought into the zone and severely punish the prime movers in organizing and commanding the recent provocative acts and the criminals involved in them in accordance with the provisions of the armistice agreement and to take responsible measures lest such espionage and subversive acts and any other provocative act against our side should be committed again.

We Vehemently Denounce Secret War Talks Of U.S. Imperialists and Jap. Militarists

War maniac Nixon and Prime Minister Sato of Japan ended the three-day criminal secret talks in Washington and issued the so-called "U.S.-Japan joint communique" on Nov. 21.

In the "joint communique" Prime Minister Sato clamored that "I deeply appreciate the peace-keeping efforts of the United Nations in the Korean Peninsula and the security of the 'ROK' is essential to Japan's own security."

We vehemently denounce a series of intrigues contained in the "joint communique" issued by the U.S. imperialists and Sato, Prime Minister of Japan. In fact these intrigues are an intolerable challenge to the Korean people and the peoples of various countries of Asia.

In this "joint communique" Sato, Prime Minister of Japan, firmly assured that the U.S. imperialists may make full use of Okinawa freely in a new Korean war as a means of blackmail, stressing that "the 'ROK' and Japan are part of the integral whole."

This shows that the Japanese militarists will permit the U.S. imperialists to continue occupation and to maintain its nuclear base in Okinawa permanently and are going to pose a great threat to the peace of Asia and of the world, permitting U.S. imperialism to use it as an offensive base and a supply base in a new Korean war.

We know full well that Sato said as follows at a press conference given immediately after the "joint communique": "If there should be an armed attack upon the 'ROK' such a situation would have a serious effect on the security of our country. We would decide our attitude immediately in a prior consultation, if such a serious situation should arise and if the U.S. army has to use its military establishments in Japan as direct operational bases."

In fact, the Japanese militarists are the most faithful running dogs of the U.S. imperialists, the direct prosecutors of their policy of aggression and war of the U.S. imperialists against Asia and the heinous enemy of the Korean people and the peoples of various countries of Asia.

Marshal Kim Il Sung, the respected and beloved Leader of the Korean people, said as follows:

"Today the U.S. imperialists are directing the spearhead of aggression particularly to Asia, and Japanese militarism is faithfully serving U.S. imperialism as its 'shock brigade' in Asian aggression. In an absurd attempt to realize its old dream of Asian aggression again with the U.S. imperialist backing, Japanese militarism has gone the length of working out war plans against Korea and other socialist countries in Asia and began stretching out its crooked hands of aggession overtly to other areas, too."

Through the "Japan-U.S. Talks," the Japanese militarists invented all the possible devices for realizing their old dream of a "Greater East Asia Co-prosperity Sphere" by devoting themselves to aggressive machinations against Asian countries and taking over more of the war burden of the U.S. imperialists from their shoulders, who are suffering from a crisis in their Asian invasions, the serious dollar crisis and the shortage of cannon fodder.

They are permitting the U.S. imperialists to use Japan as a base for their new war provocative machinations, and are supporting their machinations, beginning with the armed spy ship "Pueblo" incident and the espionage plane "EC-121" incident. Furthermore, they are making desperate efforts to promote war preparations, clamouring on the pretext of the "threat" of the socialist countries that the "38th Parallel is the border line of Japan" the "Japan's military operation area outside of Japanese territory will be Korea in the 1970's" and that the Japan's "Self-Defence Forces" will carry out "joint operations" with the U.S. imperialist aggression army if the U.S. imperialists provoke a new war in Korea.

The Japanese militarists made clear in the "joint communique" issued after the "Japan-U.S. Talks" that they "deeply appreciate the peacekeeping efforts of the United Nations in the area...."

This shows plainly that the Japanese militarists not only recognize the Pak Jung Hi puppet regime, the regime resolutely opposed and condemned by all Korean people, as the "only legitimate regime" in Korea but also are wickedly plotting to fulfil their aggressive aim against Korea and other Asian socialist countries, by extensively participating in the U.S. imperialists' provocative maneuvers against Korea under the name of the United Nations.

This reckless play with fire of the revived Japanese militarists backed by the U.S. imperialists, aimd at achieving their dirty artifices, is a serious menace to the security of the Korean people and also to the peace of Asia and of the world.

Today, the Japanese people, indignant over the nation-selling acts and criminal aggression policy of their Government, are arising like an active volcano, and are waging inprecedentedly popular large-scale struggles, bitterly opposing the "Japan-U.S. Talks" between Sato and Nixon and demanding abrogation of the "Japan-U.S. Security Treaty" and immediate unconditional and complete return of Okinawa.

Moreover, the Korean people and broad peace-loving peoples of Asia and the entire world are powerfully denouncing this secret war "talks" of the U.S. imperialists and Japanese militarists.

We, all Koreans, cannot tolerate this vicious scheme.

We will wage struggles to the end against U.S. imperialism, the sworn enemy of the Korean people, and resolutely oppose and reject the criminal provocations of the Japanese militarists, who intend to invade Korea.

Under the manipulation of the U.S. imperialists the Japanese militarists are trying to draw the puppets and satellite countries in Asia into their plan to realize their old dream of a "Greater East Asia Co-prosperity Sphere" and to become masters of Asian countries. But their manoeuvres are doomed to failure.

DPRK Public Organizations Issue Joint Stat't in Support of

Anti-War Struggle of U.S. People

PYONGYANG, Nov. 15 (KCNA)—The Korean National Peace Committee and the Korean Committee of Anti-U.S. Struggle for Supporting Vietnam issued a joint statement today in connection with the extensive mass struggle of the people in the United States against the U.S. imperialists' criminal war of aggression in Vietnam.

The joint statement says:

A massive struggle of the people against the U.S. imperialists' criminal war of aggression in Vietnam is now going on extensively in the United States.

Millions of people of all walks of life in the United States are taking part in this anti-war struggle, and in various parts of the country they are strongly protesting against and denouncing the Nixon clique's war of aggression in Vietnam through various forms of struggle—demonstration, meeting, all-night sit-in, strike, school strike etc.

Frightened by the expansion of the anti-war struggle on a nation-wide scale, the Nixon clique are trying to put down this struggle of the people by employing every conceivable means and method.

The large-scale anti-war demonstration struggle in the United States is an eruption of the ever growing discontent of the people of the United States with the U.S. imperialist policies of aggression and war and a just struggle for the right to existence, democratic freedom and peace.

This struggle is a heavy blow at the U.S. imperialist policies of aggression and war.

The Korean people manifest active support to and solidarity with the progressive people of the United States in their courageous struggle against the policies of aggression and war pursued by the U.S. imperialists, the common enemy, and bitterly denounce the criminal acts of the Nixon clique in suppressing the just struggle of the people of the United States.

On Nov. 3 last Nixon openly revealed his aggressive design to further intensify the war of aggression in Vietnam and perpetuate the occupation of South Vietnam, palavering about "Vietnamizing the war" under the "plan for peace" in Vietnam, "the withdrawal of troops in accordance with the scheduled-timetable" and the like.

This shameless outburst of the Nixon clique is a naked challenge to the people of the United States and the peace-loving people of the whole world who are demanding an end to the war of aggression in Vietnam.

The U.S. imperialists must discontinue immediately and definitively all acts of aggression against Vietnam and quit South Vietnam for good, unconditionally taking their aggression troops and troops of their vassal countries and puppets.

The Vietnam question should be solved in accordance with the proposal put forth by the representative of the Democratic Republic of Vietnam and the ten-point proposals made public by the delegation of the South Vietnam National Front for Liberation and the Provisional Revolutionary Government of the Republic of South Vietnam at the Paris conference on Vietnam.

If the U.S. imperialists continue with their war of aggression in Vietnam, defying the resolute opposition and denunciation of the people of the United States and the people of the whole world, the beasts will sustain a still more shameful defeat in face of the heroic war of resistance of the Vietnamese people.

Comrade Kim Il Sung, the great Leader of the 40 million Korean people and one of the outstanding leaders of the international communist movement and working-class movement, said:

"The imperialists are hard hit from within and without, and driven further into a blind alley."

Today U.S. imperialism is battered and mauled everywhere by the world revolutionary people who have turned out in the anti-imperialist, anti-U.S. struggle and is steadily going downhill.

The U.S. imperialist policies of aggression and war meet not only the strong opposition of the people of the United States but a fierce resistance of the peoples who have risen up for freedom and liberation and national independence in Asia, Africa, Latin America and in all other parts of the world where they have set foot.

The U.S. imperialists are dealt a heavy blow by the grand struggle of the entire people of North and South Korea, now going on vigorously under the banner of anti-U.S., national salvation and their colonial ruling system in South Korea is shaking to its very foundation.

The Korean people are convinced that if the peace-loving people of the United States firmly unite and courageously push aside the Nixon clique's repression and fight relentlessly, they will greatly contribute to the ending of the war of aggression in Vienam and to the cause of world peace.

(Continued from page 5)

But Adams, senior member of the enemy side, while saying that his side would "investigate" the incidents protested against by our side, tried to cover up its crimes by twaddling about non-existent "infiltration" and "violation" by us.

After sharply pointing out that the so-called "infiltration" and "violation" clamoured about by the senior member of the enemy side were nothing but a cock-and-bull story intended to veil the truth about all the criminal acts committed by the U.S. imperialist aggressors, the senior member of our side once again demanded the enemy side to admit the espionage and subversive acts proved by all the personal and material evidences and guarantee that such criminal acts would not be committed again.

Nevertheless, the senior member of the enemy side persistently evaded an answer to this.

The senior member of our side stated at the meeting that the U.S. imperialist aggressors, while perpetrating ceaselessly malicious military provocations against our side, have frenziedly reinforced the armed forces in South Korea and sped up in full-fledge scale the preparations for the provocation of a new war, frequently staging military exercises of unprecedented scale in an imaginary total war against the northern half of the Republic by mobilizing the aggressive armed forces.

The senior member of our side branded the U.S. imperialist aggressors "patrol flights" by the big-size "B-52" bombers as a new grave provocative act of aggression against the Korean people and other Asian peoples, and a challenge to and suvbersive acts against security in the Far East and Asia.

This is a main link in the manoeuvres for the provocation of a new war of aggression by the U.S. imperialist aggressors against our people and shows that the war provocation moves of the villains are entering a fuller and overall stage, assuming a more adventurous nature, he stressed.

But, the senior member of the enemy side brazenly let loose the silly talk that the U.S. imperialist aggressors are stationed in South Korea to "defend" South Korea and "protect" the South Korean people, thus provoking the derision of those present at the meeting hall.

The senior member of our side flayed this outburst of the enemy side, asking ft whom the U.S. imperialist aggressors were "defending" or "protecting" and where, he said: The so-called "defence" and "protection" is no more than a ridiculous blast of the aggressor to justify the U.S. imperialist aggressor troops' occupation of South Korea and their new war provocation manoeuvres and further step up the military provocations against our side.

All the facts irrefutably prove that the U.S. imperialist aggressors are persisting in premeditated, deliberate attempts to provoke a new war of aggression in Korea, the senior member of our side pointed out. He went on:

If the U.S. imperialist aggressors unleash a new war of aggression in Korea, it will only lead to their final doom.

With no provocative manoeuvres or nuclear blackmail can the U.S. imperialist aggressors frighten the Korean people.
